- Competent user of Git/Github(6 months)
- Competent user of AWS(6 months)

Game Development Environments
- Competent user of unity(1 year).
- Competent user of RPG Maker(5 years).
- Novice user of Unreal Engine(6 months).

IT & technology
- Competent user of Office applications, including Word, Excel, and PowerPoint. - Competent user of Photoshop.

Effective communication

- Able to communicate in a variety of ways, both verbally and written – demonstrated in various presentations.
- Working in customer service has also helped me to build and expand on my communication skills. My roles in the hospitality sector and call centres involved daily interaction with all kinds of people.
- Confident communicator on a range of social media platforms – as shown when managing social accounts.

Creativity - Skilled in generating creative ideas, and implementing them to meet strategic goals.

- Capable of producing aesthetically pleasing work, in a range of formats and media platforms – shown in a number of engaging presentations and projects that used a combination of text, imagery and video.

Commercial awareness

- Able to understand and utilise consumer behaviour in order to hit KPIs – as learnt in a number of modules, and in using my own blog to sell my music.
- Capable of measuring consumer behaviour by tracking various metrics, including page views, CTR, bounce rate, conversion rate, and search engine traffic.

Certification

ITonlinelearning Code Career Program

- Learnt HTML essentials.
- Learnt Css essentials.
- Learnt Python.
- Learnt JavaScript.
- Learnt Git&Github.
- Learnt the Command Line.
- Learnt AWS.

The Complete Java Development Boot Camp Udemy

- Learnt how to read and write Java code to a professional standard.
- Learnt advanced concepts in Java.
- Learnt Java Web development, Android development.

- Class 2 license and valid cpc card holder.
- Have taco card and knowledge of working hours.

Hobbies & Interests

Avid blogger and social media user. I am a music enthusiast and play guitar, drums and sing. In my spare time mostly I like to develop applications using Android Studio and Visual Studio to become more efficient with the software development environments. Whilst studying other programing languages on Udemy, I like to explore blogs and open source coding projects to try and broaden my horizon, and contribute any knowledge I may have in help sections of coding groups.
